Summary

I am a student of **Computer Science Engineering (Diploma)** with a solid understanding of **C, C++, HTML, Python, CSS, DBMS, and Data Structures**. I have worked on several **projects** using **C, C++, HTML and CSS**. I am enthusiastic about **artificial intelligence** and **machine learning**, and I am eager to explore the entire field of AI. I aim to develop a project in this area and delve deeper into the subject.

Education

Diploma in Computer Science Engineering -	Arunachal University of Studies (July 2023-2026)
High school (73.6%) -	CBSE Board June 2024
Matric (72.4%) -	CBSE Board June 2022

Skills

→C	→HTML
→C++	→CSS
→Data Base Management System	→Python
→Data Structure	

Projects

1. Typing Speed Test using C

Console-based app to measure typing speed (WPM), time, and accuracy across three difficulty levels .
Strengthens file handling, string manipulation, and real-time input skills .

- **GitHub** :- <https://github.com/Palak-teotia/typing-speed-test>
- **Skills** :- C (Programming Language) , Standard input/output , Time functions , String , Terminal , Problem Solving , Git , GitHub

2. Bank Management System using C++

Console-based system for banking operations like account creation, deposit, withdrawal, and data viewing . Features modular design and file-based data storage .

- **GitHub** :- <https://github.com/Palak-teotia/Bank-Management-System>
- **Skills** :- C++ , Problem Solving , File Handling , Object-Oriented Programming (OOP) , AWS Command Line Interface (CLI) , Git , GitHub

3. Food Recipe using HTML , CSS

Developed a responsive food recipe website using only HTML and CSS, featuring well-structured recipe pages, visually appealing layouts, and a user-friendly design to enhance accessibility and readability .

- **GitHub** :- <https://github.com/Palak-teotia/Food-Recipe>
- **Skills** :- HTML , CSS , Problem Solving , File Handling , Git , GitHub
